

AMARNATH BALOTAGI

Test Analyst

Bangalore | +91 8880002234 | amarnath.s.b123@gmail.com | <https://www.linkedin.com/in/amarnath-balotagi>

PROFESSIONAL SUMMARY:

Test Analyst & ISTQB Certified with 3+ years of experience driving quality assurance across Trading, ERP, Supply Chain and EdTech domains. Expert in Manual, API, Mobile (iOS & Android), and Automation Testing using Java, Selenium, TestNG, and GitHub. Proven ability to deliver high-quality software through effective test planning and execution.

SKILLS:

- **Manual Testing:** Black Box Testing, Cross-Browser Testing, UAT, Data Migration.
- **AI Tools :** GitHub Copilot, Claude, Chat-GPT, Gemini.
- **Database:** MySQL, PostgreSQL, Oracle SQL Developer.
- **Test Automation:** Selenium WebDriver, TestNG , REST Assured.
- **API Testing:** Postman with REST API.
- **Programming Languages:** Core Java.
- **Mobile Testing:** Android & iOS Real devices, BrowserStack.
- **Tools & Infrastructure:** Jenkins, JIRA, ClickUp, Kafka, Zookeeper and GitHub.
- **Methodologies:** Agile, Scrum, SDLC and STLC

WORK EXPERIENCE:

Test Analyst

Feb 2023 - Present

Testyantra Software Solutions Pvt Ltd, Bangalore

- Spearheaded the transition to an automation-first approach using Selenium and TestNG which increased total test coverage by 60%.
- Authored 8000+ test cases to provide full functional and system coverage for business-critical modules and high-traffic features.
- Utilized AI tools such as OpenAI ChatGPT and GitHub Copilot for test case generation, automation script optimization, SQL query creation, API payload validation, and faster debugging of automation failures.
- Led the end-to-end testing quality strategy for complex data migration projects using advanced SQL and API to ensure data accuracy.
- Established the Root Cause Analysis (RCA) documentation process which standardized defect tracking with Regular Defect Triage and reduced bug-reopen rates.
- Formalized a mobile QA protocol for iOS and Android real-device testing that significantly improved compatibility benchmarks.
- Managed the full defect lifecycle ,SDLC and STLC using Jira and ClickUp to provide stakeholders with real-time visibility into Product health and ROI.
- Maintaining a robust Requirements Traceability Matrix (RTM) for 100% coverage, and delivering data-driven Test Summary Reports to stakeholders for informed release sign-offs.

EDUCATION:

Bachelor of Engineering

KLE MSSCET, Belagavi

KEY PROJECTS:

MPL (Mobile Premier League) – Trading

Responsibility:

- Performed end-to-end testing on Android & iOS ensuring app stability and usability.
- Conducted backward compatibility & configuration testing across OS versions.
- Automated Toolbox & Dashboard using Selenium TestNG, reducing regression execution by 45%.
- Validated real-time event/configuration testing using Kafka & Zookeeper.

Toyota Working Groups (TWG) – Supply Chain Management

Responsibility:

- Gathered/analyzed requirements and performed Japanese language testing for the supply chain app.
- Involved in data migration & Automated delivery flows with Selenium, reducing manual effort by 40%.
- Executed smoke, regression, and integration testing across multiple phases.
- Conducted API testing with Postman and backend validation with SQL queries.
- Generated reports and coordinated defect management using JIRA.

EP Projects – Enterprise Resource Planning (ERP)

Responsibility:

- Implemented Automation for auto portal using Selenium.
- Executed tests across testing phases, including API testing with Postman
- Actively logged defects and selected test cases for automation.
- Contributed to frameworks, managed GitHub, and wrote SQL queries for data retrieval.

Be Masterly (Navneet) – EdTech

Responsibility:

- Automated online & offline exam modules and mobile responsive testing.
- Created automation framework from scratch (TestNG, Selenium).
- Engaged in data migration testing, defect logging, and SQL-based validations.
- Delivered reports and supported release readiness.

CERTIFICATION

- ISTQB Certified Tester – Foundation Level (CTFL) – Indian Testing Board – 2025

ACHIEVEMENTS:

- Logged over 247 bugs over 3 months and was awarded the title of Star Performer.
- Prevented a ₹3 Crore annual revenue loss by identifying and resolving a critical functional bug within the MPL platform's core transaction module.
- Automated 20+ critical test scenarios, reducing execution time by 30–40%
- Built a comprehensive regression suite from scratch, improving release efficiency
- Enhanced reporting processes, improving product team visibility and decision-making.
